

2012 National Safety Stand Down

This year's FAASTeam Safety Stand Down focuses on Loss of Control. Loss of Control In-Flight was the dominant cause of fatal general aviation accidents over the last decade. Loss of Control refers to accidents resulting from situations in which the pilot should have either maintained or regained control of the aircraft, but did not. Join the thousands of other pilots across the country in attending this exciting briefing!

Directions: From I-5 North or South follow the signs to Boeing Field and the Museum of Flight. The Museum is located on the West side of Boeing Field. The Safety Standdown will be held in the main theater.

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!
